**Product certificates\***

\* Product certificates are plant specific.

**Product conformity**

Dramix® conforms to ASTM A820, EN 14889-1 and ISO 13270 Class A.

**System certificates**

All Dramix® plants are ISO 9001 and ISO 14001 certified.

**Handling**

**DRAMIX® 4D 80/60BGP**

**Optimized anchorage**

Dramix® 4D provides optimal crack control for standard statically indeterminate concrete structures that are submitted to regular static, fatigue and dynamic loadings with high serviceability requirements.

**Glue technology for three-dimensional reinforcement**

Dramix® steel fibers are bundled with water-soluble glue. The glue helps avoiding fiber balling during mixing and ensures a homogeneous distribution of fibers throughout the concrete mix.

**The high performant strength**

Dramix® xD Premium is a high performant fiber to create optimal ductility in high strength concrete.

**Bekaert Bekaert construction support**

You can count on our support for each step of your project, from concept design to on-site quality support. Our services include recommendations on slab design, construction detailing, concrete optimization and automatic total quality control procedures. We are also happy to share our knowledge with you and your team.

Feel free to ask us for a workshop or training on the topic of steel fiber reinforcement in your offices.
